

## ■ Performance of Raw Materials Usage, Eco-Friendly Purchasing and Sales

Category	Unit	2022	2023	2024
Total raw material usage	ton	130,295	139,997	147,087
General raw materials	ton	130,295	139,997	147,087
Eco-friendly raw materials	ton	–	–	–
Total purchase amount of raw materials	KRW million	2,590.5	3,048.4	3,115.2
General raw materials	KRW million	2,590.5	3,048.4	3,115.2
Eco-friendly raw materials	KRW million	–	–	–
Total amount of consumables used	ton	115.8	114.3	119.4
Paper	ton	75	87.6	91.5
Plastic (container/tray)	ton	9.2	9.8	10.2
Miscellaneous materials, etc.	ton	31.6	16.9	16.9
Ink/Solvent	unit	1,230,052	1,162,533	1,176,375
Total purchase amount of supplies	KRW million	375.3	521.6	546.6
Purchase amount of eco-friendly materials	KRW million	296.3	429.3	293.7
Paper	KRW million	260.0	390.7	250.0
Recyclable Plastic (container/tray)	KRW million	10.7	12.9	10.9
Mercury ink/solvent	KRW million	25.6	25.7	32.8
Proportion of purchasing eco-friendly materials	%	79.0%	82.3%	53.7%
Sales of eco-friendly packaging products	KRW million	6,987.2	8,919.1	9,180.1

※ Calculation Standards for Green Purchasing :

: Raw and subsidiary materials with environmental certifications, and recyclable packaging materials

※ Calculation Standards for Green Sales:

: Sales from products using eco-friendly packaging, including those with eco-friendly printing or green technology applications.
